Product Description

CCV's Trailer Box is designed for customers who want an innovative and versatile solution that can be custom ordered to replace the standard trailers available in the market today.

CCV's Trailer Box is all composite, lightweight and built to last with Sandwich Engineering Technology. It's a one of a kind solution with quality and dependability performance characteristics that put it in a class of its own. CCV Trailer Box is completely customizable allowing for extreme versatility to tailor it to any application.

When you purchase a CCV trailer Box you're investing in cutting edge technology and versatility. Built to last, a CCV Trailer Box is highly economical short term and long term. Its lightweight construction reduces fuel costs, too. You can purchase one insurance for one trailer while adding multiple boxes for that trailer, saving you money.
