OCÉ RECOGNIZES CCV FOR SETTING A HIGHER STANDARD IN DELIVERY PERFORMANCE CCV Innovative Composite Panel Systems wins honor for Outstanding Effort in Delivery Performance

Kelowna, BC, January, 23rd, 2008

CCV, North America's leading manufacturer of composite panels and panel systems has been recognized by Océ Display Graphics Systems for "Outstanding Effort in Delivery Performance." Océ presented the award to Richard Luehr, CCV's Managing Director at Océ's Supplier Appreciation Day on November 15, 2007.

CCV received recognition as one of Océ's best suppliers because it consistently stands out on delivery performance helping Océ stay on track with production of its Arizona 250GT printer table product. When presenting the award, Océ recognized CCV for setting a higher standard in delivery performance for other suppliers to follow.

"It's a great honor to receive this recognition," said Richard Luehr, Managing Director. "At CCV we value hard work, customer satisfaction and passion for delivering the highest quality product on time to our customer's specifications. This award shows that our team's hard work is successfully meeting Océ's expectations for quality work and on time delivery."

CCV has been involved in the design and fabrication of Océ's Arizona 250GT printer table since November 2005.

When asked how CCV will sustain the high standards the company consistently sets Luehr stated, "We developed our five-step customer success program to ensure we meet our customer's expectations from start to finish 100% of the time. This award is a strong indicator that our program is working."

About CCV

CCV is North America's leading manufacturer of innovative composite panels and panel systems. Using a unique combination of advanced technologies and processes, our skilled design, production and technical support team transforms the industry's largest range of material options into composite panels and panel systems engineered to our customers' specifications. CCV is well known for its capability to transform standard panels into complete system solutions.

CCV solutions can be used in almost any application. Examples include vehicle floors, enclosures, trains, boats, buses, building interiors and exteriors, clean rooms, printer beds, interactive white boards, and tradeshow booths and/or displays.

As a premier supplier of quality products, CCV's mission is to exceed customers' expectations while creating an environment where every employee is recognized as an important resource. For more information about CCV and its products or services visit www.ccvbc.com.

CCV (Canadian Commercial Vehicles) Corporation is a subsidiary of The Eastern Company, www.easterncompany.com with a combined 145 years of manufacturing experience.
