Product Description

CCV's truck sleepers are manufactured for customers who want an innovative and versatile solution that can be custom ordered to replace the standard sleepers available in the market today.

CCV's sleepers are strong, lightweight, and durable.

Using our experience in building sleepers we have developed a very effective method of manufacturing sleepers for large pick-up trucks.

"CCV has been building sleeper compartments for our trucks that are an integral part of our air suspended cabs. We demand the tightest of tolerances and their quality work is second to none."
